Help! Is this a new kind of scam?

Congratulations Mr. Megumi Mochizuki, You have been chosen by our company to test out this amazing new product!

*A pocket-size machine is a kind like a slot machine, i.e. gambling device

SCM: Not a bad idea.

Shit! Is she going to rat me to the cops?

And who I raped!

She's the girl that I met 1 month ago on the internet

A game...?

Hey, Wanna play a game?

I'll let you fuck me again

If you win....

The hell
is with
this
woman?

Could it be,
this
woman, is...

Just
extremely
perverted?

What
about,
giving me
\$1000?

Only
\$1000

What!
what if I
lose?

Yeah

So,

That's the
rules that
I was
thinking of
having

After
30
minutes

The side that
has the most
Pachinko tokens,
wins, is that
okay?

Each
side
starts
with \$50

And so,
about the
match,

The side that HAS the most tokens, wins

No, the rules that I set, were.

Your rules sound fine!

But I'll let you choose what specific rules you want to implement

So, the side that gets the most tokens, wins, right?

Wait

That'll be the rules

The only tokens that are accepted in this game are the ones that an arbitrator has set

Don't tell me you have a ton of tokens inside those bags!

Hold on a minute!

That's right. Don't forget what happens if you lose.

Okay, so the one who has won the most tokens themselves, is the winner

Hey! I felt something in my mouth...

Let's start the game!

5 minutes left...
If I win
it big again,
my victory
will be
assured!

Nope,
I'm not
letting
you
get
away

That's
not
what
I'm
doing!

Hey, you
can't use
the tokens
next to
your seat!

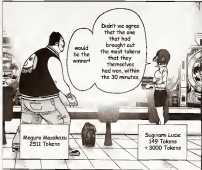

Those are
the tokens
that I
use

1 minute left

Hubo

0 Minutes left

No one said
that you can't
use tokens that
you had won,
beforehand!

I had
thought
inside my
mind...

...I was
trying to
avoid feeling
by getting
angry, but...

That I had...
Lost...

That she had
put one over
on me...

Y, You

You Cheated!
Do you
seriously
think I'd
let you
get away
with...

Welcome,
to the
world of...

Slavery

There are
several
levels:

1
I'll
listen to
most of
your
commands,
but...

2
The
person
who
becomes
a slave...

3
10
5

4
2
1

1. You cannot
order anything
that will lead
to their death

2. You cannot
control the
feelings of your
slave

3. You cannot
order something
that is beyond
the capabilities
of a human

4. Ordering
limitations on
bodily functions
depends on the
endurance of
the slave

SCM is
screaming!

Oh, so
the slaves
really have
to obey

Even if
it's something
they don't want
to obey...

I had to
go through
with the trouble
of making a
fake Instruction
manual, for that
SCM

A slave...?
I thought
the SCM
was used
to win at
gambling?

I just wanted
you to come
to the Pochinko
parlor with your
SCM as you no
matter what

Ah, don't
remove that
thing in your
mouth without
my order!

There is
someone else
that I want
to take
revenge on

But

I'm lucky
you were
such an
idiot

I never
thought it
would go
this
smoothly

...To those guys
who raped me
after you left
me there to
rot...

This is
your first
job as a
slave.

Is she
serious?
She was
raped
again
after
that...

I want
you to
take me
to live.

I've found
one of the
rapists
off

Right now.

Under-
stood!

In this
car
right!!

You
raped
me

Wh
What are
you

I'm sorry
I'm sorry
I'm sorry

Aah!!

.....

We've
arrived

What
you
do

I will
never
forgive...

...It looks like
he hasn't
come home
yet, so
we'll stake
out here...

Okay

Huh?

God

It's
him

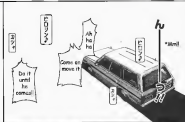

Drive up close
to him, and
pull him into
the passenger
seat!

Yeah!

Aizen here

This arc felt like a filler
to me for some
reason...
